PROCUREMENT SECTION  
CURRENT SERIAL RECORDS

Hogs and pigs on farms in the United States on December 1, 1971 are estimated at 63.0 million head--7 percent less than a year earlier, according to the Crop Reporting Board. Hogs and pigs kept for breeding are estimated at 8.5 million, a decrease of 10 percent. Market hogs and pigs, at 54.5 million, are down 6 percent from a year earlier.

The June-November 1971 pig crop is estimated at 45.7 million head, 8 percent below a year earlier. And, the 6.3 million sows farrowed in this period is 9 percent below a year earlier.

The December 1970-May 1971 pig crop is estimated at 52.4 million head, about the same as a year earlier. The 1971 pig crop (December 1970-November 1971) totals 98.0 million head, 4 percent below a year earlier.

Hog producers intend to farrow 6.5 million sows during December 1971-May 1972, 10 percent less than a year earlier. If realized, and pigs per litter are average, allowing for trend, the pig crop for the period will be 47.8 million head--9 percent below a year earlier.

The inventory value of all hogs and pigs totaled \$1,795 million, up 14 percent from December 1, 1970. The average value per head averaged \$28.50, up \$5.13.

The following change in hog and pig estimates announced October 1971 is effective with this report: Individual State estimates of December-May Intentions to farrow are provided for 23 States. For the rest, individual State estimates of December-May sow farrowing intentions are discontinued but are replaced by a combined estimate for the 27 States and an estimate for the United States.

## HOGS AND PIGS ON FARMS DECEMBER 1, 1971

The number of hogs and pigs on farms December 1 is estimated at 62,972,000--down 7 percent from December 1, 1970. Breeding hogs totaled 8,515,000, a decrease of 10 percent from 1970. Hogs and pigs for market totaled 54,456,000, 6 percent below a year earlier.

By weight groups, market hogs and pigs on December 1, 1971 and the decreases from a year earlier are: Less than 60 pounds, 20,043,000 head, 7 percent; 60-119 pounds, 14,524,000 head, 7 percent; 120-179 pounds, 10,972,000 head, 4 percent; 180-219 pounds, 6,684,000 head, 4 percent; and 220 pounds and over, 2,233,000 head, 7 percent.

Regionally, hog numbers decreased from a year earlier, except in the West where they increased 2 percent. The largest decrease, 8 percent, was in the West North Central Region; the East North Central showed a 7 percent decrease; the North Atlantic Region, 3 percent; South Atlantic Region, 2 percent; and the South Central, 4 percent.

IN THE 10 CORN BELT STATES--Ohio, Indiana, Illinois, Wisconsin, Minnesota, Iowa, Missouri, South Dakota, Nebraska and Kansas--the December 1 number of hogs and pigs is estimated at 46,514,000 head, 8 percent less than a year earlier. The 10 States accounted for 74 percent of the Nation's total inventory of hogs and pigs. Iowa, accounting for the largest share, 24 percent, decreased 9 percent. Second-ranking Illinois, with a 10-percent share, decreased 12 percent from a year earlier.

Market hogs and pigs in the 10 States totaled 40,298,000 head, 7 percent less than December 1, 1970. Breeding hogs totaled 6,216,000--9-percent decrease from a year earlier.

### JUNE-NOVEMBER PIG CROP DOWN 8 PERCENT

The June-November 1971 U. S. pig crop totaled 45,653,000 head--a decline of 8 percent from a year earlier. The East North Central, South Atlantic and South Central Regions were down 9 percent; West North Central, 8 percent; North Atlantic, 6 percent and the Western, up 2 percent.

Sows farrowed during June-November 1971 totaled 6,298,000 head, 9 percent below a year earlier.

Average litter size during June-November 1971 was 7.25 pigs compared with 7.21 a year earlier.

THE JUNE-AUGUST 1971 PIG CROP IN THE 10 CORN BELT STATES totaled 16,890,000 head, a decline of 8 percent from a year earlier. Sows farrowed during the quarter totaled 2,330,000 head, 9 percent below a year earlier.

THE SEPTEMBER-NOVEMBER 1971 PIG CROP IN THE 10 CORN BELT STATES totaled 17,554,000 head, 7 percent less than a year earlier. Sows farrowed during this period totaled 2,420,000 head, a decline of 9 percent.

## DECEMBER-MAY INTENTIONS DOWN 10 PERCENT

Hog producers in the U. S. intend to have 6,544,000 sows farrow during December 1971-May 1972, 10 percent below a year earlier. With these intended farrowings, if litter rates are average, allowing for trend, the pig crop will total 47,771,000, a drop of 9 percent from a year earlier.

Sows bred and intended to farrow in the 10 Corn Belt States during December 1971-February 1972 totaled 1,809,000, an 11-percent decrease from a year earlier. Intentions are lower in all 10 States -- from a 3-percent decline in Minnesota to 16 percent in Iowa.

Reported intentions are for 3,052,000 sows to farrow during the March-May 1972 quarter in the 10 States, 8 percent less than a year earlier. Intentions in the 10 States are below a year earlier, except in Kansas, where plans are to increase farrowings for the three months by 2 percent.

Farrowings in these 10 States are expected to total 4,861,000 sows for the December 1971-May 1972 period, a decline of 9 percent from a year earlier.
